#### ABOUT ME

Final-year Software Engineering student with a strong foundation in software development, particularly in algorithms, data structures, and object-oriented programming. Proficient in Python and Java, with experience in developing scalable software solutions and contributing to impactful projects. Skilled in problem-solving and passionate about creating software that makes a difference. Proactive with the goal of growing as an engineer and contributing to innovative teams.

### **EXPERIENCE**

## **PROJECTS**

# **BanquetBuddy - Catering Management Application**

Python, Django, PostgreSQL

Scalable application that connects individuals, employers, and catering companies to facilitate event organization. Designed and implemented key features, focusing on performance and scalability.

https://github.com/ISPP-GRUPO-8/BANQUETBUDDY

## **PhoneDoctor - eCommerce for Mobile Phone Repairs**

Python, Django, SQLite, Docker

eCommerce platform for mobile phone repair services, ensuring a smooth user experience and optimizing backend processes. Collaborated in a team of 5 people using agile methodologies.

https://github.com/PGPI-2-1/PhoneDoctor

## **Sentiment Analysis of Tweets**

Python, TextBlob, NLTK

Sentiment analysis tool to classify tweets by sentiment. Utilized machine learning algorithms and natural language processing libraries such as TextBlob and NLTK to preprocess data and train models.

https://github.com/Antonio23337/Analisis-Sentimientos

HTTP Server Python, Java

HTTP server to compare socket handling and HTTP request management in different programming languages.

https://github.com/elguille2/http-server-python, https://github.com/elguille2/http-server-java

### **EDUCATION**

## University of Seville, Seville, Spain

2018-2025

Software Engineering

#### **SKILLS**

**Programming Languages and Technologies:** Python, Java, JavaScript, HTML, CSS, Django, Spring, Git, SQL, PostgreSQL, Data Structures and Algorithms, Shell Scripting, Linux

**Software Engineering Skills:** Version Control (Git, GitHub), IDEs (Visual Studio, IntelliJ IDEA, Eclipse), Debugging, Software Development Lifecycle Management, Unit Testing, Agile Development

Additional Skills: Problem Solving, Effective Communication, Critical Thinking, Independent, Proactive

Languages: Native in Spanish, Fluent in English, Basic in Portuguese
